

## PM7221

Digital Voltage/mA Calibrator

| SPECIFICATIONS         | RANGE   | ACCURACY    | RESOLUTION |
|------------------------|---|-------------|------------|
| mV Measure(INPUT)      | 0-100mV   | ± (0.02%+2) | 0.01mV     |
| mV Source(OUTPUT)      | 0-100mV   | ±(0.02%+2)  | 0.01mV     |
| V Measure(INPUT)       | 0-10V   | ±(0.02%+2)  | 0.001V     |
| V Source(OUTPUT)       | 0-10V   | ±(0.02%+2)  | 0.001V     |
| mA Measure (% of span) | 0 to 24 mA (-25% to 125%)   | ±(0.015%+4) | 0.001 mA   |
| mA Source(% of span)   | 0 to 24 mA (-25% to 125%)   | ±(0.015%+4) | 0.001 mA   |
| Loop Power             | 24 V DC   | ±10%        |            |
| FEATURE                |   |             |            |
|                        | Measure loop current (0-24 mA) signals with very high accuracy of 0.015% and 1uA resolution |             |            |
|                        | Measure voltage output process signals from PLCs, transmitters                              |             |            |
|                        | Source or simulate 24 mA loop current   |             |            |
|                        | Source voltage to 100 mV or 10V   |             |            |
|                        | 24V loop supply with simultaneous current measurement                                       |             |            |
| GENERAL                |   |             |            |
| Power Supply           | 4x1.5V AA batteries   |             |            |
| Weight                 | Approx. 550g  |             |            |
| Size                   | 194x93x55mm   |             |            |
| Safety Rating          | EN61010-1,EN61326-1   |             |            |
